

**UNITEAM TRAINING**

# T-BOSIET (EBS / TSBB) + CA (EBS)

## Course Overview

Tropical Basic Offshore Safety Induction & Emergency Training with Emergency Breathing System combined / Travel Safely by Boat / Compressed Air Emergency Breathing System (CA-EBS) Initial Deployment Training

Offshore Safety Induction, Helicopter Safety & Escape with EBS, Firefighting & Self Rescue, Sea Survival, Lifeboat, and First Aid); T-BOSIET (EBS) is the standard course for people working offshore in warmer environments in South East Asia.

Swing rope transfer (theory and practical), Transfer by FROG (theory), transfer by Billy Pugh (theory), Compressed Air Emergency Breathing System (CA-EBS) Initial Deployment Training (theory and practical);

For offshore workers in Myanmar, we recommend people to take this course, as it covers all the elements from T-BOSIET, as well as personnel transfer (FROG, Billy Pugh) and new requirements in Myanmar, such as Emergency Breathing System & Compressed Air Emergency Breathing System (CA-EBS) combined with Travel Safely by Boat.
