

Voyage Planning

UT-MAR-034

Course Overview

Aims and Objectives:

The aim is to improve knowledge and practical skills of seafarers, for preparation and implementation of safe and compliant Voyage Plans. To ensure seafarers understand the importance of careful and continuous review of the current voyage plan.

Objectives: At the successful completion of the course, every participant will be able to:

- Describe the main international regulations governing the preparation Voyage Plans
- Describe both specific requirements of Flag State and Ship manager
- Explain the purpose of the Voyage Plan and its practical use during the voyage
- Compile and carry out a Voyage Plan in full conformance with applicable regulations and guidelines, taking into account all known and foreseeable internal and external factors.
- Review the passage plan in compliance with international requirements and Safety Management system.
- Consider the Commercial aspects and Load line requirements during voyage planning.
- Describe and apply consideration of Seaworthiness.
